### A Fish That Could Talk.

A natural curiosity captured on the coast of Africa on May 5, 1854, by Signor Cavana and exhibited in all the great cities of Europe during the years 1859, 1860, 1861 and 1862, where it was advertised as the "talking fish," was in reality a species of the African seal, well known to naturalists on account of its wonderful powers of mimicry. This particular animal was about twelve feet in length and weighed something over 800 pounds. It had a fine, doglike head and large, beautiful black eyes, which seemed to sparkle with intelligence whenever the creature was spoken to by any one. It was very docile and when told to dance would roll over and over in its bathtub, with first tail and then head above the water, all the time chattering as though enjoying the sport as much as the spectators did. It soon learned many odd tricks and, it is claimed, learned to articulate at least three words very plainly — viz, "mamma," "papa" and "John," the last being its keeper's name. When told to pray it would clasp its flippers in the attitude of supplication and put on a sanctimonious look.

### A Marvel of Wood Carving.

One of the greatest works of Henry Vorbruggen is the carved pulpit of the grand parochial church at Brussels. The whole design is an allegorical scene. At the base are Adam and Eve, life size, expelling the angel, while grim Death himself may be seen hovering in the rear. The first pair bear upon their shoulders a hollow globe, the cavity being the place where the preacher stands while delivering his sermons. From the globe rises a tree sustaining a canopy, which in turn supports two figures—one of an angel and the other a female representing Truth. Above all this are the Virgin and the infant Jesus crushing the serpent's head with a cross.

### One Way to Break Glass.

It is scarcely credible, but it is a fact, that a glass can be broken by the voice. If you strike a thin wineglass while you hold it by the stem it will emit a certain note—in most cases a pretty, deep one. On approaching the glass rapidly to your mouth and shouting into it the same note as loudly as possible, the vibrations of the glass being thereby extended, it will be shivered into fragments. This used to be a favorite experiment of Lablache, the renowned basso, who, when in company with his friends, thus broke one after the other all the glasses that were handed to him.

### Our Oldest Bit of Literature.

The book of Job, as it is incorporated in the Bible, is believed to be the most ancient literary work in existence. It is known to have been written prior to the Pentateuch and prior to the promulgation of the law. In profane literature the poems of Homer are the most ancient that have come down to our day, though the names of others still older are in existence. The Pentateuch was written about the year 145 B. C., and the Homeric poems about 640 years later.

### The Heavens Seen From the Sea.

Every one who has been much at sea knows something of the peculiar splendor of the heavens when beheld from the deck of a ship. Celestial phenomena seem to possess an unusual impressiveness when viewed under such circumstances. The clearness of the air in fair weather and the flatness and distance of the horizon tend to heighten this effect.

### Applying Her Information.

"Mamma," queried little Florence, "should I say pants or trousers?"

"Trousers, my dear," replied her mother.

"Then," said Florence, "I must give Fido some water, for he trousers just awfully."

### Grotesque.

Dumley—Smith is an awful coward. Why, he looks afraid of his own shadow. Lumly—I don't wonder at it—if his shadow looks anything like the original!

### Odd Names In Delaware.

Delaware has a curious collection of odd surnames. There is a family of Colts in Kent county. The Peppers and Mustards have long lived neighbors in Sussex, and there are Peaches in Newcastle county, inauspiciously settled north of the peach belt. One man named his three sons for the several counties of the state, and Delaware is an occasional Christian name. A girl whose name was Leonora Missouri Cannon provoked from a stranger the prompt declaration that the name was sentimental, patriotic and explosive.

### Real Balm of Gilead.

The real balm of Gilead is the dried juice of a low shrub, it is said, which grows in Syria. It is very valuable and scarce, for the amount of balm yielded by one shrub never exceeded sixty drops a day. According to Josephus, the balm or balsam of Gilead was one of the presents given by the queen of Sheba to King Solomon. The ancient Jewish physicians prescribed it evidently for dyspepsia and melancholia.

### Didn't Want an Elephant.

"An elephant must be a pretty expensive animal."

"Yes; I wish I had enough money to buy one."

"What do you want with an elephant?"

"I don't; I merely expressed a wish for the money."—Philadelphia Press.

### Gets Nothing.

Hicks—The way Bragley talks of providing for his wife he seems to think nothing too good for her. Wicks—H'm! And the way he actually provides for her he seems to think nothing is good enough for her.—Philadelphia Ledger.

### Management of the Spoon.

Use the spoon only to stir tea or coffee; never use it to sip or drink with. As soon as the liquid is stirred place the spoon in the saucer and leave it there during the remainder of the meal. If a second cup is desired, pass the cup with the spoon in the saucer, not in the cup. Do not drink from the cup with the spoon in it.

No whip cuts so sharply as the lash of conscience.—Proverb.

It is much easier for a woman to confide in the average man than in the average woman. She knows that the man will respect her confidences and keep them to himself. He is strong, has more experience of the world and can help the woman who needs advice. There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the womanly organism. When a woman has ills and pains that she cannot bear—when life seems dark for every woman, she should confide her troubles to a physician of standing in the community, or one who has a national reputation. Certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she was *a woman*. There is every reason why she should write to some great specialist, one who has made the diseases of women a specialty for a third of a century, like Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. All his correspondence is held sacredly confidential, and he gives his advice free and without charge.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

## THE IONE ROAD.

A trip over the road between Jackson and Ione must convince any unprejudical mind that it is in a deplorable condition. The truth is apparent almost the entire length of the thoroughfare that it is practically worn out. For the greater part of the distance the wagon way is also the water way. It is discouraging, after the years of special taxes levied for the main purpose of putting this road in good condition; after pouring out money without stint in the vain effort of making this artery of traffic a macadamized road that would continue in good shape, with slight repairing, for many years, to find that its metal veneering has been ground into dust; that no semblance of a turnpike character remains. Its crown—if it ever had any worth speaking of—has been converted into a hollow way, and everything tends to show that the vast sums of money expended upon it — while admitting that some change for the better has resulted as compared with former days--have fallen lamentably short of meeting public expectations. It is useless to look for its transformation into a fairly good road under the existing road system. Its condition to-day is a standing protest to the present wofully defective road law. We have not got, and we never will get, adequate returns for the money expended. Thousands of dollars have been wasted in trying to water it; large sums have been thrown away in sprinkling it with oil; but the one fact that faces the casual observer to-day is that neither water nor oil can materially aid it at present. What it wants is road-building material of the hardest character that can be had.

A rumor is afloat to the effect that a movement is contemplated in official quarters to spend the money in the special road fund in pouring oil on this troublesome highway. It will cost a couple of thousand dollars to put sufficient oil to quiet the dust for the summer season. And that is the sum total of the benefit that will accrue from the expenditure. We have no hesitation in denouncing any movement in this direction—as the roadway now stands—as a reckless waste of money. Supervisor Amick is reported to be opposed to this scheme. He wants the money devoted to permanent improvement —something beyond the mere laying of a few clouds of dust in the summer season. And we believe his judgment in this respect will be sustained by nine-tenths of the taxpayers. The only campaign of operations that will command support is to deal with this vital artery of traffic with the view of keeping it in the best travelable condition, with the funds available, during the winter months, as well as the period of traction engine traffic. Ths experience of one season has exploded the idea that the traction engine is an important helper in the road-making business. It is the same as any other kind of heavy travel. Its tendency is to wear out a road, not to improve it. And the peculiar tooth-like construction of its broad tires seems to aid in the disintegration of the road bed. Still we do not claim that the traction engine should be ignored in the expenditure of road money, but we do contend that the tiding over the wet season with the least possible inconvenience to the freighting business is the vital point to be ever kept in view in the disbursement of the road funds of the three districts involved.

## COMMUNICATION.

PLYMOUTH, June 8, 1904.

Editor Amador Ledger:—

By your permission please let me in your columns correct the article published in the Amador Ledger June 3, 1904, regarding the misfortune of Mr. J. J. Ekel, which happened some twenty years ago at Mr. Jack Bert's place in the town of Plymouth, Cal., Mr. Ekel at the time of meeting with his misfortune was not in the employ of Mr. Bert as his attorney, but went there at the request of Mr. J. H. Holman, who was then the constable of this township, to keep the peace, quiet, and order. We consider Mr. Ekel acted as any other citizen would when called on by an officer of the law.

The above statement I verify.

Signed: J. H. HOLMAN.

Yours Respt.,

C. H. SHIELDS.

### License Ordinances.

The supervisors at their meeting Tuesday, after deliberating for two months on the objectional features of the old ordinance, passed what they believe to be an ordinance, that will stand the test of law, and tend to elevate the liquor business. The new ordinance goes into effect on the first of August, when all persons desiring to sell spirituous or malt liquors in Amador county will be expected to comply with its provisions. All applications for licenses for new places were laid over until the August meeting of the board. Space will not permit us to print the ordinance this week, the main features of the new law is as follows:

Requiring the applicant to furnish $1000 bonds with two sureties.

Requiring the applicant to be filed at least 5 days before the August meeting.

Petition to be signed by at least 10 out of 20 respectable citizens, who are taxpayers or heads of families living nearest to the place where the business is to be conducted.

Not to allow any minor child under eighteen years of age to visit the place of business and not to sell give or deliver to any child under eighteen male or female any intoxicating drinks.

Not under any conditions to grant licenses for the selling, furnishing, giving away or distributing, of any malt or fermented liquors or wines at any dance hall.

In any city or town a retail license will cost $15 per quarter, payable in advance.

At any tavern or watering place outside the city or town limits a license will cost $7.50 per quarter, payable in advance.

All retail licenses carry with them the privilege of wholesale.

Where any lady is employed in saloons as bar-tender, waitress, dancer or singer, $300 per quarter will be charged payable in advance.

The district attorney has closely scrutinized every clause, paragraph and selection and does not believe that it can be shown to be unconstitutional.

The peddlers and other licenses were enacted separately, so that if one should by chance be declared to be contrary to law, it would not invalidate the other. Chairman Moore says he has given this subject earnest consideration, has listened attentively to both sides of the controversy and believes that the board has done the very best that it is possible for them to do under the circumstances.

### For a Hundred Years.

For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co. of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt" on the package, and accept no other. Sold by City Pharmacy.

### A Strong Heart

is assured by perfect digestion. Indigestion swells the stomach and puffs it up against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its function naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to to the blood and tissues all of the food nutriment. Tones the stomach and digestive organs. Sold by City Pharmacy.

### Notice to Taxpayers.

Property holders will please take notice that for the next two months I will be at my office in the court house, Jackson, for the purpose of receiving statements of assessment, and the collection of personal property taxes and poll taxes from all persons who are liable therefor.

## MISCELLANEOUS.

### Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of Indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

### Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

**Kodol Digests What You Eat**
**Make the Stomach Sweet.**

### Big Game.

Game Warden Arditto, when dressed in hunting attire, is an ideal looking nimrod. No one would ever suspect him of being an officer of the law, a friend of the innocent dove, and a protector of the bounding deer. Two years ago Chezro Arditto accepted an appointment at the hands of the board of supervisors as game warden of Amador county. At that time he took a solemn oath to protect and defend the game, and enforce the game laws of the state and county as he found them upon the statute books in so far as it lay within his power so to do. Arditto's sense of hearing is very acute, and on Saturday, while standing on the sidewalk, he distinctly heard several reports of gun shots fired in the direction of Mattley's field. Dressing himself in hunter's attire, with gun in hand, he boldly announced to his friends that he was going after doves and would not return until he had secured his game. His friends stood in amazement to see the officer of the law go forth to carry out his threat in supposed direct violation of what he was sworn to defend. On the outskirts of town he called his deputy, O. Reichling, to his assistance, and together they went forth to ascertain from whence the gunshot reports had come. They had not gone far before they discovered Chris Bon in the act of shooting doves in violation of the law. Arditto had found his man; he also found seven doves. He forthwith made himself known, and placed Mr. Bon under arrest. As the trio walked through town on their way to the justice' office the by-standers took in the situation, and applauded the warden for the manner in which he had carried out his deception. Mr. Bon plead guilty and paid a $25 fine, lost his doves, and went home satisfied that it was illegal to slaughter doves before the 1st of July.

Barrett was on hand as usual to claim the birds, but Arditto has read all the law books from Blackstone to the county hospital reports, and understands his business. He gave the doves to the sick and needy, and remarked to Mr. Barrett that he might be able to fool all of the people some of the time, and some of the people all of the time, but that there was one fellow that never got fooled but once.

### Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Up-to-date dentistry by Dr. Delucchi, the Sutter Creek dentist.

New line of dusters just received at Peter Piccardo's harness shop.

Pioneer Flour is the "Lily of the Valley," the "Pearl of Perfection."

Fresh pickled olives of the season just received; 65c per gallon. Nettles' Market.

George Phelps, second son of Rev. J. W. Phelps, is spending his vacation with his parents. He is attending the state university.

Ledger and Chicago Weekly Inter-Ocean, both papers one year for $2.50 in advance.

A. B. Goldenberg has resigned his position at the Golden Eagle to accept a more lucrative one at the Red Front.

Miss Cora Culbert of Amador City left last week for a visit with relatives in Missouri. She will take in the big fair, and possibly one or more of the much-talked-of cyclones.

Nothing will please an invalid as well as a package of those fancy cakes from Nettles' Mkt.

Miss Daisy Bonnefoy came up from San Francisco to visit her parents. She was accompanied by her uncle, Julius Lounthal, and little son.

D. A. Nuner and family, recently proprietor of the Globe hotel, have moved from San Francisco to Stockton, and intend to make that city their home.

Delucchi, the Sutter Creek dentist, is still doing that excellent dentistry at the old stand. He guarantees satisfaction.

At the Middle Bar school election, Friday, J. Swithenbank was elected trustee for one year, and Mrs. J. L. Sargent for three years. The last named will be clerk.

Dr. Endicott reports two cases this week of a typhoid nature, viz., Willie Tam and Mrs. Wm. Nettle, jr., and Dr. Gall reports one case near Jackson Gate. People should be very careful and not drink slimy water or eat stale fruits. With this disease an ounce of prevention is worth a pound of cure.

Alfred Harris, who lives in the Hamilton addition, cut his finger with a knife with which he had been peeling an orange. In less than a week blood-poisoning set in, and in a short time it affected his entire system. Dr. Phillips amputated one finger, since which time he has slowly improved. He appeared on the streets Wednesday, for the first time in seven weeks.

Mr. Gibson and family, consisting of wife and three small children, arrived in Jackson from San Jose by yesterday's stage, intending to make their future home here. On account of his wif's health he was recommended by the physicians to move to this county. Mr. Gibson is seeking work to support his family. He will do any kind of manual labor. Any person having any work to be done will help a needy and deserving family by employing him.

Mr. and Mrs. J. S. Phillips came down from Ione Tuesday and visited the family of Mr. and Mrs. A. T. Ames of this place. Both Capt. Phillips and his wife are trusted employes at the Preston School of Industry and Monday of this week asked for and were given a two weeks' vacation, which they expected to spend in and around the city of San Francisco. On arriving in Galt Tuesday, Capt. Phillips was threatened with erysipelas, and Wednesday morning his face was so inflamed and swollen from the attack, upon the advise of a Galt physician, he hurried back to the hospital connected with the Preston School. The disease seems pretty deep seated, and Mr. Phillips will have to remain several days under medical treatment at the hospital before he will be in a condition to take a vacation. His faithful wife returned with him to Waterman Wednesday afternoon.—Galt Gazette.

### Revenue Collector.

Clovis T. La Grave, deputy internal revenue collector, was in town this week, attending to the duties of his office and renewing old acquaintances. Mr. La Grave formerly edited the Ione Echo, and married one of Amador county's native daughters.

## SHENANDOAH VALLEY.

SHENANDOAH VALLEY, June 2.

There have been several cases of lagrippe in the valley of late, your correspondent being among the victims.

Fred A. Ball is quite ill with rheumatism, being at present confined to bed.

Thomas D. Davis is teaching the Pigeon Creek school, to fill the vacancy caused by the resignation of Miss Maude Brown.

Mr. and Mrs. G. F. Moore of Stockton, are the guests of Mr. Moore's mother, Mrs. Frances Moore of this place.

R. M. Brown is building a new dwelling house a few yards from his present home, but on higher ground.

O. Ball went to Sacramento last week on business with the land office, returning yesterday.

The farmers' busy season is on. Most of the hay is down, and the weather is somewhat unsettled. Help is scarce as usual, and the days to the farmer are a busy whirl.

Miss Maude M. Brown of this place and Frank M. Norris of Oakland were married last Sunday evening at the home of the bride's parents, Mr. and Mrs. Robt. Brown, sr. Rev. W. J. Call of Plymouth performed the ceremony, in the presence of only the near relatives and close friends of the young couple. A dainty lunch was served afterward, and at a late hour the guests departed, wishing Mr. and Mrs. Norris all the best gifts of life. The happy couple left Monday morning for Oakland, where they will make their home. The bride is one of Shenandoah's fairest and most gifted daughters, and has hosts of friends whose good wishes follow her to her new life. Mr. Norris is the only son of Mr. and Mrs. L. G. Norris of Oakland, and is well known and popular in Plymouth, where much of his life has been spent. The invited guests were: Mrs. L. G. Norris of Oakland, Mr. and Mrs. J. B. McAuley, Mr. and Mrs. R. M. Brown, Mr. and Mrs. G. W. Easton, Dr. and Mrs. E. V. Tiffany, Tom and Miss Mary Davis.

Men's and boys' straw hats on sale this week at Redlick's.

Ed. Hurst, who has been confined to his room for three weeks from the effect of putting a patented corn salve on his small toe, is still unable to leave his room. He is slowly improving however.

Joe Cademartori, accompanied by Miss Belle Ashland, came over from Sonora Tuesday, to visit the former's parents. Joe is now clerk in the City hotel, but expects soon to open up a bakery business in that town.

G. B. Arata, of Clinton, met with a painful accident Friday while trying his team in Jackson. A newly shod mule stepped on his foot pressing the the heel of the shoe into the foot, making a deep incision. Dr. Phillips dressed the wound, but it will be some time before Mr. Arata can use the foot.

David Griffith, proprietor of the Penryn Granite works, was in Jackson this week. His business is to introduce his polished granite headstones and monuments into this section. The granite of Placer county is of finest description, and for monuments is more durable than marble.

John Huberty, deputy county clerk and newly elected school trustee of Jackson district, has gone to Stockton and San Francisco for a week or ten days, presumably for the purpose of studying school methods and management. John expects to assist in placing the Jackson school in the front rank of public schools in the state.

Deputy sheriff Kay, and the stage messenger Fisher, had some fun taking a drunken hobo to the jail Saturday evening. The fellow was slim and hungry looking, but kept his captors busy trying to hold him on his feet. Judge Goldner took pity on the poor fellow next day and gave him ten days at the county boarding house.

A large traction engine, the same size as the one now in operation on the Ione road, was shipped by the Holtz Manufacturing Company to D. McCall of Ione last Monday. It will be put to work in the hauling business between Ione and the mines. This engine is to replace the smaller one shipped back to the Holtz Company some time ago, as being too light for the work in this county.

On Thursday of this week one of our enterprising young men had occasion to visit our neighbor, "The Athens of the Foot Hills," to meet a prominent mining superintendent on his return from the bay city. Supervisor Newman's best turn-out was brought into requisition, and the trip down was dustless and eventless. But while in Ione the aforesaid young man drove around town, presumably to observe all the late improvements, etc., when the horses suddenly shied at a group of Ione's charming misses, and——but you must ask Chez why he was obliged to leave one of the horses and secure another in its stead in order to return to Jackson on time.

Thos. Love, executive clerk of the Southern Pacific Company, stationed at the Oakland Mole, arrived in Jackson Saturday evening. The alarming illness of his sister, May Love, was the principal cause of his visit. He left again Monday morning to resume his duties at the railroad office. He left his brother, R. L. Love, to look after their sister, who will accompany her to the city as soon as her condition will permit. She will be placed in a sanitarium there, if in the opinion of medical experts there is any hope of effecting a cure in her case. She is subject to sinking spells. Last Sunday she had 10 or 12 attacks, leaving her in an extremely weakened condition. She was taken to the city Wednesday.

### Death of Louis Martell.

Louis Martell, one of the oldest and most respected pioneers of Amador county, died at the home of his daughter, Mrs. M. Riestra, near Galt, on Friday evening, June 3, 1904, after an illness of but twelve days.

Mr. Martell was born at Montreal, Canada, on March 2, 1820, and at the time of his death was 84 years and 3 months old. He came to California in 1850, and for 22 years conducted a blacksmith business in the town of Jackson. He then removed to Sutter Creek and engaged in the same business, which he continued to follow until old age reminded him that he must give way to others. At the time of his death he still owned the building wherein he had earned the means that enabled him to support a large and interesting family. He was a kind-hearted, generous man. It is said of him that he gave to others enough to have made him a wealthy man. He gave because it was a pleasure to him to give, yet he never boasted of his generosity. He spent the last few years of his life with his children. It was while visiting with his youngest daughter that he accidentally fell from the bed, striking in such a way as to cause paralysis. He lingered for twelve days, and peacefully gave up life's struggle, surrounded by all his children. He leaves to mourn his loss one son, Louis N. Martell, of Martell's station, four daughters, twenty-two grandchildren and eighteen great-grandchildren, besides a host of friends who had known him from their childhood. His remains were interred in the Catholic cemetery Monday, by the side of those of his wife who died several years ago.

### Advertising the County.

The board of supervisors on Monday appropriated $250 for the purpose of advertising, in a way, the various resources of Amador county. During the first week in September the Knight Templars of America will hold a grand conclave in San Francisco. It is understood that people from all parts of the world will be present. El Dorado county has appropriated a like amount, and with this money El Dorado Commandery No. 4 proposes to have compiled a souvenir booklet setting forth the various resources, the natural advantages, and the climatic condition of the two counties. The commandery will purchase thousands of small baskets, fill them with fruit, wines, and olive oil, and in each basket will be placed one of these booklets. To each visiting member who calls at El Dorado headquarters will be given one of these baskets, and at the same time they will be asked to register the name of some friend, to whom one of these booklets will be sent by mail. If any persons call who are not going directly to their room, they will be asked to leave their number and a basket will be sent to them by pages employed for that purpose. None but Amador and El Dorado fruits, wines, and oil will be used by this commandery. It is thought that in this way much good can be accomplished. The supervisors do not wish to have this taken as a precedent that like donations will be made for similar purposes, but rather an experiment in commemoration of an event, the like of which may never occur in this state again.

### Railroad Franchise.

The franchise offered for sale by the supervisors was sold to Jackson Dennis, president of the Ione and Eastern Railroad Company, he being the only bidder for the same. The price received was $50, together with all expenses of advertising, etc. It is now up to the company to show its good faith in the matter. The franchise goes into effect on the 26th of June, and work must be begun within three months, with five miles completed and equipped within one year. We believe the proposition is a good one. It will be a paying investment. Prejudices should be laid aside. Every encouragement possible must be given the company. People who own lands along the route selected should not hesitate to give the rights of way. It will enhance the value of every man's property through which it passes. It may cause some few men to feel as though it will work an injury to their business. This will only be temporary however. It will open up new and more important enterprises.

### Married.

Alexander Eudy, of the firm of Eudy & Marre, and Miss Nellie Adams, daughter of Mrs. R. J. Adams of San Francisco, were married at the home of the bride's mother on Monday evening. The following day they started east on their wedding trip, intending to take in the St. Louis exposition and many other points of interest during their stay. Both of these young people were born and raised in Jackson, and are highly esteemed by the entire community. Jackson will be their future home.

The Ledger extends congratulations, wishing them a pleasant journey east and a life of continuous happiness.

### High-school vs Grammar.

The Jackson grammar school boys with W. S. Williams as manager, hired a four-in-hand Saturday and went forth with colors flying, horns tooting and voices ringing, to meet the Ione high school boys in friendly but earnest combat upon the latter's diamond.

The game was called at 1-30 P. M. and was interesting from start to finish. The Jacksons did their very best but the high-school boys could not bear the idea of being beaten by "grammar school kids," and put up the best there was in them. The score stood 9 to 5 in favor of Ione. Come up soon boys, we will take pleasure in lowering your colors.

GRAMMAR.

### Fourth of July.

The business men of Jackson are requested to meet at the court house Sunday, at 10 o'clock a. m, to see what can be done toward celebrating in Jackson on July 4, 1904.

## VOLCANO ITEMS.

Salem Bonneau, sr., went to Jackson Monday to attend the funeral of his old-time friend and countryman, Louis Martell.

Mrs. Eckart, wife of Superintendent Eckart, died at her home Sunday morning about 10 o'clock. Deceased had been ailing for several months, and her death was not unexpected. Her remains were shipped to San Francisco Monday for interment.

John Harker, our smallpox patient, is doing nicely. He is now able to step to the door and get a breath of pure air.

The election of school trustees was quite lively. John F. Clute was re-elected by a majority of five over our jovial blacksmith, T. J. Quinn.

The wife of Peter Jonas, jr., presented her husband with a bouncing baby girl on the 3d inst. He now has four daughters and one son. Pete is a rank democrat, and a strong believer in the doctrine of 16 to 1.

Everybody and all their relations that could secure conveyances went to the Italian picnic Sunday. We even met two big stout men driving a three-legged horse, but they got there just the same. They were determined to see Bradshaw play ball, but we hear that Brad took the ice wagon for a buss, and got cold feet before the game began.

Emmet Gillick has taken his family for a summer's outing. Their tent is pitched on Rancheria creek, where Mr. Gillick has a large wood contract.

P. N. Peck will soon begin harvesting his fine crop of oat hay. Mr. Peck expects to have the best hay on the market this fall.

Boydston & Marsino are talking of putting in a telephone line direct to Oleta. Mr. Boydston was riding over the route Sunday.

Mr. Clark, of the Ledger, was in town Sunday evening. He expects to move his family to Jackson in a short time.

One of the Glenn children is improving slowly; the other has not passed the danger point.

The "Big Elephant" people will clean up soon.

Marsino & Sons are getting out the pay dirt pretty lively now.

The Madrone mill will soon be in running order, and then we will have something interesting to tell you.

Several men are working at the old Treadwell mine, but we do not know just what they are doing.

The Glenn is producing more bountifully than any other mine in Amador county according to the number of persons employed.

## PLYMOUTH.

PLYMOUTH, June 8.

Last Sunday quite a number of our town people attended the picnic at Fullen's grove.

Having been elected as delegate of Forest Parlor No. 86, Mrs. Carrie Tiffany will go next week to Pacific Grove to attend the grand parlor which will convene at that place June 14th. Miss Maggie Slavich will accompany her.

The citizens of our town met in Shields' hall last week for the purpose of discussing the Fourth of July celebration, which is to be held here. A committee of arrangements was appointed.

Mrs. Hungerford, who has been very ill at the Forest House, is now convalescent, and will soon be able to return home.

Mrs. G. L. Clark visited friends near Oleta Tuesday.

Mrs. A. O. Dugan and daughter Alma visited relatives and friends in Latrobe yesterday.

Nome Hite, or better known as Klondike, is noted as a visitor in town.

Geo. Weston left yesterday for the sand plant, where he has secured employment.

Miss Rickert of El Dorado county, was the guest of Mrs. H. E. Potter this week.

Miss Lizzie Laberty, who has been paying her aunt, Mrs. Geo. Noe, an extended visit, returned to her home in Jackson last Saturday, accompanied by Ella Slavich.

At the last regular meeting of Plymouth Rebekah Lodge No. 65, the following officers were elected to serve for the ensuing term: N. G., Polly Phillips; V. G., Ella Wise; trustee, Mary Scoble.

HANS & FRITZ.

## AMADOR CITY.

AMADOR CITY, June 6.

Miss McCall of Ione is visiting friends in this city.

Miss Daisy Fox left for Lancha Plana Sunday.

Robert E. Hinkson, accompanied by his sister Lucy, departed Tuesday morning for Seattle where the former has employment.

J. R. Tregloan left Tuesday morning for Placerville.

Mrs. G. Simmons returned to her home at Williams, Colusa county, Sunday.

Miss Helen McLaughlin returned home Sunday, after a week's vacation with her cousins at Volcano.

E. LOUIS.

### Runaway.

Neal Pratt's launday team took it into their heads to create a little excitement Saturday evening, and while the driver was talking to some of his customers the horses dashed down Court street with all speed possible. They ran into a pile of dirt, which checked their speed and prevented accident.

### Bad Indeed.

Losing flesh is indeed a bad sign. Take Scott's Emulsion for it. For weak digestion, for defective nourishment, or consumption, take Scott's Emulsion. It restores flesh because it strikes at the cause of the loss.

Why doesn't Wonderly come, we want a ager right away.

### Vandalism.

On Sunday morning, between the hours of 1 and 3 o'clock, some person bent on mischief entered the Jackson stage barn and proceeded in his own devilish way to destroy whips, harness, cushions and trimmings, thinking perhaps that he would prevent the stage from making its daily trip that day. The damage was discovered in time however to secure the services of a harness-maker, and all necessary repairs were made in time for the stage to be off at the appointed hour. Just what object any person could have in doing this cannot be conjectured. If it was for revenge against owner or driver for some fancied wrong, it was certainly a most cowardly way of seeking it. Cutting the harness might endanger the lives of many, and perhaps friends of the one doing the mischief. On the other hand, if the perpetrator has the spirit of destruction born within him, he was working to satisfy his desire to do something that would inconvenience others. Mr. Raab, the owner of the stage line, is a gentleman who by hard work and honest dealings with his fellow man has accumulated considerable property. He has no known enemies, and is at a loss to know why any one should seek to do him injury. It has been his one desire since purchasing the line to give his customers the best service possible for their money. He estimates his immediate loss at between $30 and $40. Chris Meiss, the driver, is a young man of ability, a thorough reinsman, always at his post of duty, ever working to carry out the instructions of his employer, and always paying respectful attention to the requests of those who take passage with him. Every effort will be made to bring the perpetrator or perpetrators of this crime to justice. It may take a little time, but the clew is strong and the fear of being grasped by the strong arm of justice will be a far greater punishment than to be confined within prison walls.

### Home on a Visit.

Edmund G. McMillan of San Francisco, son of Jackson's popular photographer, is spending his vacation with his parents. Master McMillan began work as chore boy in the Western National Bank of San Francisco when but thirteen years of age, at a salary of $15 per month. After three years of faithful service he has reached the position of first assistant book-keeper, at $75 per month. His young lady friends gave him a party Thursday evening. He will resume his duties at the bank Monday morning.

### Baseball Next Sunday.

Placerville vs. Jackson will be the attraction on Dwyer's hill Sunday afternoon, June 12th. This will be the first game by the newly organized Jackson club, with Frank Burgin as manager. Both teams are made up of good men, and the game ought to be an interesting one. The Jacksons will line up as follows:

Hopkins, pitcher; Brooks, catcher; Grillo, 1st base; Bradshaw, 2d base; Santirfo, 3rd base; Westerberg, short-stop; Kerr, left field; Tam, center field; Perano, right field.

Blue rock shooting before and after the game for first and second prizes.

### A New Pupil.

W. S. Williams, principal of the Jackson school is doing carpenter work on the new church building. In his school work he tells his pupils to begin at the bottom of the ladder and climb up step by step. In nailing on lining he started in the same way, but his boss told him to begin at the top and come down board by board. Williams is an obedient pupil and nodded assent, but he can't for the life of him understand the philosophy of the proposition.

### Adjudged Insane.

Mrs. Kate Bovenich, wife of Antone Bovenich of Sutter Creek, was adjudged insane Tuesday by Drs. Gall and Endicott, and committed to the Stockton Asylum. This is not the first time the lady has been examined for insanity. She fancies that some great crime has been committed, and when this idea takes possession of her mind she seems possessed of superhuman strength. The doctors have hopes that her derangement will be of short duration.

### Oiling the Roads.

After the regular meeting of the Board of Supervisors adjourned Tuesday, Supervisors Moore, Newman and Amick held a special meeting in the District Attorney's office to consider the proposition of using the special fund set aside in their districts, in oiling the main roads. Supervisor Amick was opposed to the proposition, but the other two were favorable and decided to oil as far as the funds would permit.

### Badaracco Sentenced.

In the Superior Court, on Wednesday, Judge Rust sentenced Tony Badaracco, who had previously plead guilty to an assult with a deadly weapon, to pay a fine of $200. Witnesses were called to show the circumstances under which the assault was committed, which were very favorable to the defendant. In less than 20 minutes the fine was paid and the prisoner discharged.

### Coming.

The Kentucky Minstrels will play in Jackson on Saturday, June 11th, and Monday, June 13th. The wonderful singer, Daseria Plato, is leading lady of the company.

### Uncalled-for Letters.

Letters remaining unclaimed in the Jackson, Cal., postoffice, for the week ending June 10, 1904:

Antonio Banchero  John Guisto
Tom Paskin

G. C. FOLGER, Postmaster.

The editor of the Ledger has been in Sacramento and San Francisco several days this week. He returned Thursday evening. J. S. Clark has had charge of the editorial and news departments this week.

# NOTES FROM GOLD MINES

GWIN—Three hundred men are now employed. A great deal of work has been done on top, building, repairing, etc. The 80-stamp mill is running continuously. The mine is apparently doing its duty towards the stockholders at the present time.

MARSINO GRAVEL MINE—A new formation has appeared in and around the gravel. A cement lava carrying free gold has been encountered which, if it should continue, would necessitate the erection of a small mill, and greatly add to the output of the mine.

FREMONT-GOVER—The situation remains the same as last week. The sand flume is nearing completion. The strike is still on, and the company shows no disposition to yield.

THE KIMBALL PROPERTIES—Kimball & Sons, of Defender, own four claims in the Pioneer district, viz., the Deadwood, Deadsheep, and south extension to the Pioneer, all adjoining claims, and one next to the Q. Mason mine. On the Deadwood a small hoist has been erected, and several tons of good ore was taken out during the last winter. 20 tons of rock was milled last year that yielded $30 to the ton in free gold. The shaft is 70 feet deep, and the pay ledge is from 18 to 24 inches wide. It is conceded to be the Defender vein. Six tons of $30 rock and 150 tons of $6 rock are now on the dump, and will be milled during the summer. The shaft on the Deadwood is 200 feet deep. Several years ago 75 tons from this mine was crushed, and yielded $25 per ton in free gold. The sulphurets are very rich, bringing the value up to a much higher standard. This vein is about 20 inches wide in the shaft.

In the Pioneer extension a 400 foot tunnel has been run, and the prospects are good. So confident are the owners that these properties are good, that they will bond them to any one who will take hold of them and work them properly. When men who own such properties are willing to take chances on results, those who have capital to invest in mines should not hesitate to open them up, with a view of purchasing in case they proved satisfactory.

### Mother and Babe United.

A tender and touching funeral was that of little Mary Frates. The remains of her mother, which had been resting in Holy Cross cemetery in San Francisco, were brought home so that the flower of the family might rest upon the bosom that had nursed her into existence. And from love's shining circle the gems drop away, and from the midst the garden's beauties, the most delicate and fragrant buds, do sometimes but appear to enrapture and enchant us—and then fade away—to leave the beholder sorrowful. So it was with little sister, for Mary Ione Frances Frates was known to all her friends by that tender appellation, "Sister." She did but reign long enough to enrich the heart cords of loved ones and then depart, leaving an untold vacancy that never can be filled.

A quintet of October and the flowery seasons have rolled away since little Mary Frates was born to sweeten her mother's last days upon earth, and bless the declining years of her father. Nature had been lavish upon this child. She bestowed her bounteous gifts, for "Little Sister" was blessed with a sweet, amiable disposition which graced with an intellect that attracted the attention of all. These traits blended, made a personality that won the admiration of strangers, and promised and augured a grand woman. The souls of father and mother communed with their baby darling on earth. The Almighty harkened to their yearnings, and on the 27th of May, as old King Sol was nearing the meridan, He beckoned to her soul, and as gently and as noiselessly as the sunlight departs from the hills Sister's soul took its onward flight to the great beyond, into the outstretched arms of father and mother.

### Married.

Melvin W. Ford and Miss Henrietta White were made husband and wife by Rev. Father Horgan in the Catholic church at 6:30 a. m. Wednesday morning. Only a few of their most intimate friends were present. After partaking of an excellent wedding breakfast the happy couple left amid a shower of rice, for a ten days' stay in the state's metropolis. Mr. Ford is one of Jackson's enterprising and successful business men, being a member of the firm of Lucot & Ford, and a son of Hiram W. Ford, for years one of Amador's most prominent teachers. Miss White is the daughter of Mrs. Geo. White, and a most charming young lady. These young people have resided in Jackson for many years, and will make this their future home. May uninterrupted pleasure and prosperity be theirs.

### Ninth Grade Examination.

The board of education met in the superintendent's office last Saturday, and prepared questions for the ninth grade examination, to be held in Jackson, Ione, Sutter, Plymouth and Volcano, on Monday and Tuesday, June 13th and 14th. All pupils who have passed through the ninth year's work are entitled to enter. G. A. Gordon will conduct the examination in Jackson, Alice E. Gartlin in Volcano, Vannie L. McLaughlin in Sutter, Geo. F. Mack in Plymouth, and W. H. Greenhalgh in Ione.

### Kerr's Pharmacy

ask the readers of this paper to test the value of Kodol Dyspepsia Cure. Those persons who have used it and who have been cured by it, do not hesitate to recommend it to their friends. Kodol digests what you eat, cures indigestion, dyspepsia and all stomach troubles. Increases strength by enabling the stomach and digestive organs to contribute to the blood all of the nutriment contained in the food. Kodol Dyspepsia cure is pleasant and palatable.

### Mules in the Shaft.

At the Kennedy east shaft two mules have been lowered into the mine for the purpose of hauling the ore through the tunnels to the shaft. This is the first time the experiment has been tried at the Kennedy, but as they have proved advantageous in other mines there is no reason why they should not here. A suitable barn has been erected underground, and everything provided for their comfort. We understand they are to be brought to the surface every two weeks. They are tied securely, and lowered without difficulty.

### Italian Picnic.

Sunday's picnic was in many respects the most successful held by the society in many years. There have been larger gatherings at times than were present Sunday, but no more enthusiastic or agreeable crowd ever met at Fullen's grove. From early Sunday morning until 2 a. m. Monday morning, the merry voices and sweet strains of music could be heard unceasingly. Each attraction tended to add to the day's pleasantness. The merry-go-round was patronized by the babe in arms and the gray-haired grandmothers bowed down with age. The literary exercises were not carried out as programmed, owing to the failure of one orator to be present. The disappointment felt by the loss of one was more than offset by the success of the other. The address of Charles H. Crocker is spoken of by all as a masterly effort. Neatly dressed, with a clear and ringing voice, and perfectly self-possessed, Mr. Crocker spoke as one who thoroughly mastered his subject, bringing great credit upon himself as well as satisfying and honoring the committee that selected him as speaker. The baseball game was one of the afternoon attractions. While not up to the standard it was enjoyed by many. West Point took the $50 and Jackson the $25 purse. The dance was better patronized than ever. The Stockton band was greatly appreciated, and the musicians declared it to be one of the best natured crowds that they had ever played for. Not a disturbing element appeared upon the grounds during the day or evening. Socially it was a great success. We cannot say how it resulted financially until the committee makes its final report.

If you want to get a good harness or saddle dirt cheap call at Piccardo's.

### Death of S. B. Redlick.

S. B. Redlick, the treasurer of Redlick Brothers, Incorporated, died at Los Angeles Wednesday evening, after an illness of over four years. Mr. Redlick suffered from tuberculosis, which was aggravated by other complications that caused his death. He spent several years in foreign travel in a vain endeavor to regain his health. He was one of the active members of the corporation when in health, but of late years devoted his whole time to travel. Members of the family were with him when the sad event occurred, and accompanied the remains to San Francisco, where the burial took place Sunday. The Redlick stores were closed Saturday out of respect to the memory of the deceased.

### School Election.

The school election last Friday was the liveliest that has occurred in Jackson in many years. Two four-in-hands brought in the voters from every direction, until 340 votes were cast. Huberty, Kirkwood, and Marelia were elected. The vote was as follows: For three years, Huberty 208, Tam 130; for two years, Kirkwood 201, Harrington 136; for one year, Marelia 200, Kent 138.

### To Teachers and Trustees.

Seventh Grade Promotion Diplomas have been printed at the Ledger office, and can be purchased by teachers or trustees at reasonable rates. These diplomas are given by the various schools, to be signed by the teacher and superintendent.

### Shade Trees.

The supervisors on Monday received a communication from Amapola Parlor, N. D. G. W., requesting them as road commissioners to pay particular attention to the preservation of shade trees along the public highways. The communication received favorable consideration. Every tree standing within the roadbed should be preserved. It is a way-station where man and beast can stop and become refreshed without money and without price. To destroy a tree in the public roads is a crime punishable by a heavy fine.

### To Cure A Cold In One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

### Condition of Roads.

The county roads are now in fairly good condition throughout the eastern portion of the county. If the supervisors have more money at their disposal during the year, a portion of it should be reserved for winter use. When a particular spot becomes impassable it should be fixed at once, and at a time when a solid foundation can be put in. To jeopardize life and property waiting for springtime to form a crust upon which to sprinkle a little gravel is sometimes hazardous, and a roadbed repaired in this way is only temporary.

### Portuguese Characteristics.

The men of Portugal are as fond of show as are the women. Their fingers are nearly always loaded with rings, and about their bodies, which are often as round as the bowls of their tobacco pipes, hang chains as thick as ropes, from which are suspended bunches of trinkets.

The Portuguese dandy is very fond of anything that will attract public attention to his much esteemed person. Above his snowy vest he wears a cravat of gleaming colors, while in his buttonhole is stuck a full blown rose of inordinate size. I think I am pretty safe in saying that most of the promenaders I have seen strutting about in the chief thoroughfares on Sunday with a riding whip in their hands and handsome spurs on their heels have never set foot in the stirrup. The spur is to them a sign of nobility which they arrogate to themselves—a relic of the privileges of the old chivalry.—London Standard.

### Retailers of Fine Sawdust.

In the shop of a cabinetmaker in New York a sign announces "sawdust for sale." There is no evidence anywhere of the bags of coarse pine sawdust such as is used in butchers' shops, markets and saloons.

"We don't handle that stuff," said the proprietor of the shop. "Our specialty is in the sawdust of fine woods, such as mahogany, boxwood and sandalwood. We sell sawdust by the ounce or the pound, not by the bushel. The sawdust of fine hard woods brings good prices. There are about twelve varieties of it, and each has its appropriate use.

"Boxwood sawdust, the most expensive of all, is used by manufacturers to burnish silver plate and jewelry. Sandalwood is used for scent bags and for the preservation of furs. There is no waste of sawdust in our business."—New York Press.

### Where Rubies Come From.

The ruby mines in Burma are of four kinds, the most valuable being gullies formed by the action of water on the side of the hills. Next to these come the shafts, or tunnels, sunk in the hillsides; and then the wells. These last are sunk in the valley, and are of two sorts. The deep wells are sunk to fifteen or twenty feet, and the shallow ones only reach to four feet, where the first ruby bearing stratum is found. Rubies, or rather red stones of all sorts, are offered for sale in large numbers and, at every conceivable price. The inhabitants are well off, the miners being either Shans, in their enormous broad brimmed straw hats and baggy trousers, or Chinamen, in indigo blue.

### Our Debt to Asia.

It is noteworthy that out of Asia came our alphabet and our Arabic numerals. The compass we owe to the Chinese, who knew the magnetic needle as early as the second century A. D. Gunpowder originally came out of Asia, and so did the art of printing and the manufacture of paper. The Chinese invented movable types in the middle of the eleventh century, 350 years before Gutenberg. They also made silks long before Europe and porcelain that has never been equaled by Europe. Truly, Asia is the cradle of the race. On the original ideas of the Persians, Arabians, the Hindoos and the Chinese our modern society has been built.—Portland Oregonian.

### A Queer Death Superstition.

A curious relic of the superstitious ideas of the middle ages still exists in many parts of England—the notion that when the death of a person is imminent the fastenings of the door of the death chamber or of the other rooms of the house hinder the departure of the soul from the body, thus making final dissolution doubly painful.

A gentleman writing about half a century ago for a collection of antiquarian papers states that when he was curator at Exeter he had a call to the deathbed of one of his parishioners. Upon arriving there the wife of the patient told the minister that she had expected her husband to die during the previous night and on that account had left the doors all open or unlocked. Upon asking for reasons for this odd proceeding he was told of the neighborhood superstition.

### The Heart of Robert Bruce.

When Robert Bruce, king of Scotland, lay upon his deathbed in the year 1329 he remembered that he had registered a vow to help wrest the Holy Land from the heathen Turks. It was clear that the time for fulfilling this vow had passed, but a new thought presented. Why not have his heart removed and sent to Jerusalem for burial? To make the story short, this was decided upon, and Sir James Douglas was commissioned to carry it in a silver urn "to a place as near as possible to where the Saviour was crucified" and there bury it. Arriving in Spain, Sir James, with the precious relic strung to his neck by a chain, was killed in a battle with the Moors. Sir Simeon Locard returned with the heart to Scotland and deposited it under the altar of Melrose abbey, where it now is.

**FEMALE WEAKNESS**

542 1-2 Congress St.
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

*Wilhelmina Snow*
Treasurer, Portland Economic League

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a $1.00 bottle of Wine of Cardui today.

PARAMOUNT is one of the handsomest horses in the state and his breeding is of the very best. Those who raise colts by this beautiful young horse can consider themselves fortunate. A tougher, more hardy, or better formed horse never lived. His sire "Old Altamont" was the greatest sire of extreme speed in his day, having seven in the 2:10 list. There are but two or three of his sons in the State, and Paramount out-classes them all in beauty and breeding. Paramount's dam, Nancy, by Engineer, son of the Great Electioneer, was a beautiful mare with extreme speed but never was raced.
